

VAULT CEILINGS

YOU ARE SITTING UNDER A WORLD HERITAGE SITE - PLEASE DO NOT TOUCH

The “spiral vaults” in the city of Cáceres, found in **ART & SUITE APARTMENT CÁCERES**, are an element that has been repeated throughout history, appearing in all the different spots in the town and creating a peculiar and unique pattern which sets this method of construction apart on various scales: from the most humble abode to the most splendid palace, through a church’s choir or hidden away in the many cisterns which provide water to the city. Everything around us has a history, it comes from somewhere, it has its own identity, significance...

The Vaults of **ART & SUITE APARTMENT CÁCERES** have an identity of their own. They are exposed, built without the aid of centring, giving them special morphological, aesthetic, structural attributes which make them unique.

However, in the town of Cáceres, World Heritage Site, these constructions, which have survived unaltered through centuries, are at serious risk of disappearing, as the population cover or plaster the vault ceilings to make the inside of their houses completely white.

Here at **ART & SUITE APARTMENT CÁCERES** we endeavour to preserve history and art exactly as it was made centuries ago. We have one of the possibly oldest vaults in the city and we can prove it thus: only 2% of the SUITE’s vault ceilings have been restored, and you can see it for yourself in one of the corners of the bathroom. The rest is original, authentic UNESCO World Heritage, never restored or tampered with.

Accordingly, we kindly ask you to refrain from touching vault bricks in any of the rooms in ART & SUITE, since these vaults are part of a UNESCO World Heritage Site and belong to the Old Town of Cáceres.

Enjoy the silence as you marvel at these remnants of history in a unique and special place, a project cared for to its last detail, an unforgettable experience for your senses.
World Heritage Vaults - PLEASE DO NOT TOUCH. Let us preserve History.

THANK YOU FOR YOUR COOPERATION
